PRESS RELEASE

Volunteer park cleanup initiative by DODONI

A total of 80 DODONI employees took part, helping to create a more appealing environment for the locals

On Sunday, the 13th of November, DODONI arranged the cleanup of the famous park "Gianniotiko Saloni," and it was a huge success thanks to the participation of 80 employees, their kids and many volunteers.

With a pleasant attitude and increasing environmental awareness, the participants gathered early at the park, and after receiving the necessary equipment, they started gathering trash.

The volunteers cleaned-up the entire park area under the motto "we love and protect the environment," removing approximately 80 kg of trash in the process and sending their own message for a more clean natural environment. Following the volunteer cleanup, the company organized a BBQ with food and beverages for all participants.

In line with the values and objectives it has established for a more sustainable future and as part of its Corporate Social Responsibility program, DODONI continuously carries out awareness-raising and environmental protection initiatives with the goal of highlighting the importance of volunteerism.

This is the first in a series of voluntary actions in which any employee of the company will be able to take part in order to benefit the environment and the local community.

Michalis Panagiotakis, CEO of DODONI, stated: *"Volunteering is a valuable, altruistic act that benefits the well-being of our society. Through this initiative, DODONI actively demonstrates that it gives priority to issues relating to the growth of environmental awareness and sensitization while also helping to change the mindset of its people and locals regarding the proper management and disposal of waste. We would like to express our gratitude to everyone who took part in and helped with the execution of this volunteer cleanup action".*
