PRESS RELEASE

**DODONI welcomes this school year
with new milk packaging**

All the DODONI flavour, in one glass

DODONI, the top dairy industry in Epirus, is welcoming the 2019-20 school year with special new packaging for the full-fat and low-fat DODONI milk, helping students and parents get ready for a new school experience.

A product with multiple benefits for children's healthy development, the DODONI 100% fresh Greek cow milk is collected daily from the best 65 farms of Epirus, it is pasteurised immediately and ready to consume within just a few hours.

The product has considerable nutritional value and stands out with its rich flavour, thanks to the 2,500 herbs and plants growing in the pure pasture lands of Epirus. The milk is collected and bottled in compliance with the highest quality standards, ensuring that its nutrients remain unspoiled throughout its shelf life.

With a fresh graphic design marking the beginning of a new school year, the DODONI family wishes all students, teachers and parents a successful year and invites consumers to discover DODONI milk (full-fat and low-fat) in its new packaging.

DODONI, with 56 years of tradition and authentic taste - the Taste of Good, produces more than 100 different products known for their genuine flavour.
