PRESS RELEASE

## Top-class chefs choose DODONI products for awards

*5 of the most popular DODONI products were chosen for recognition at the Chef Choice Awards 2022*

Quality, outstanding basic ingredients, and the great taste of popular DODONI products were the main reasons for their selection at the Chef Choice Awards 2022, organised for the first time in Greece by Boussias and Hotel & Restaurant Daily.

Specifically, in the **Cheese & Dairy Products** category, four DODONI products swept the board, with **DODONI goat cheese** being nominated the **Winner** of the category. **DODONI Feta PDO cheese** received the '**Highly Rated**' award, and **DODONI Authentic strained yoghurt** and **DODONI Cow's butter** were nominated in the '**Shortlisted**' category.

In addition, the new **DODONI Plant'd** received the '**Highly Rated**' award in '**The Vegan Choice**' category.

The judging of DODONI products for the awards took place with a 'blind' culinary test in the IEK AKMI teaching kitchens, with the chefs on the jury being left free to do what they do best... creating amazing flavour combinations!

More specifically, top-class chefs from the modern Greek gastronomic scene, among them Michalis Nourloglou, Konstantina Voulgari - Kontesopoulou, Giorgos Manikas, and Stefanos Smponias, were invited to taste the products and to use them in original recipes. They then rated the products based on their quality, organoleptic characteristics, taste, and appearance, as well as the extent to which the companies themselves employ responsible environmental practices.

Vicky Papoutsaki, Marketing Manager of DODONI, stated about the awards: 'The recognition given to DODONI products at the Chef Choice Awards 2022, where the awards are decided by an independent jury of experienced chefs, is the highest tribute to the quality of our products. At DODONI, we are proud to honour our commitment to provide consumers with the best flavours and highest quality dairy products, and we are now doing the same for vegan products too.'
