DODONI: Recognition at the Bravo Sustainability Dialogues & Awards 2022

For the 4th time, the company has won an award in the context of the event

For another year, DODONI was recognised at the "Bravo Sustainability Dialogues & Awards 2022", in the "Bravo Society" axis, and received the Award for Supporting Greek Society. The Awards have been taking place since 2013.

More specifically, after both the evaluation process undertaken by the Committees and the public vote at the Bravo Awards 2022, DODONI received an award for its ongoing social programme "The Taste of Good". This year DODONI produced 10.5 tons of DODONI Light 2% Strained Yogurt, which was distributed through the programme to organisations working in Epirus, Attica, Xanthi, Drama and the ArgoSaronic and North Aegean islands.

To date, DODONI has donated 10 million portions of products to our fellow human beings in need throughout Greece, including vulnerable social groups and organisations which work with them, such as "The Smile of the Child", ELEPAP's children, the Ark of the World, etc.

At the award ceremony, Michalis Panagiotakis, CEO of DODONI, stated: *"This recognition is a significant reward for the efforts made by the DODONI family to support and integrate vulnerable groups throughout Greece. We are delighted with this recognition and we pledge to continue our work with the same dedication and drive, with meaningful actions, and to play a role in the common effort to tackle malnutrition effectively and to secure equal access to food for all."*

The Bravo Sustainability Dialogues & Awards is an event promoting social dialogue on Sustainable Development at a national level, based on initiatives implemented by businesses, local authorities and civil society organisations which contribute to the creation of the Greece of tomorrow.
