

PRESS RELEASE

DODONI named Top Greek Export Company 2019 and DODONI feta Top Greek Export Product

Two gold awards for DODONI at this year's Greek Export Awards

The DODONI dairy industry attained double-gold distinction at this year's **Greek Export Awards 2019, receiving the gold award in the event's most prestigious Top Greek Export Company 2019 category, as well as in the Top Greek Export Product category for its renowned Feta P.D.O. DODONI.**

These new distinctions once again emphasize DODONI's outstanding performance in the export sector as well as the company's more than five decades of commitment to producing 100% Greek dairy products of the highest quality and taste, the "taste of good".

With exports to more than 50 countries all over the world, DODONI is a proud international ambassador for Greek nutrition and products. Today, the company offers more than 40 different products to markets around the world, and it plans to further strengthen its presence in these markets while entering even more countries and creating additional new products based on the tastes and preferences of international consumers.

At the same time, feta P.D.O. DODONI claimed the top prize in the **Top Greek Export Product** category, as it represents the product of exceptional quality, the standard-bearer for the company as well as a point of reference for the entire international category, having won a unique place in the preferences - and at the tables - of consumers far and wide.

DODONI's Exports Director, Vasilis Vrohidis, stated: *"It is both an honour and a great joy for the entire DODONI family to be recognized once again in these two most prestigious categories at the Greek Export Awards. And this year in particular, our satisfaction is twice as great after winning the award for top export company in Greece for 2019. We are especially proud that authentic Greek taste and products can so successfully travel to – and be appreciated in – over 50 different countries around the world. And so we remain committed to continuing to produce products of the greatest purity that are 100% Greek, with our uppermost priority being superior quality and unique flavor – qualities which distinguish our products both at home and abroad."*

- Held for an 8th consecutive year, the Greek Export Awards 2019 featured 36 companies from various sectors. Their primary goal is to recognize the people, ideas and collaborations among Greece's leading export firms, highlighting the finest examples of enterprise, new technologies and the improvements in quality of a new generation of products which are most effective in penetrating in the enormously demanding international markets. The awards ceremony took place at the Divani Apollon Palace & Thalasso hotel and was attended by approximately 300 market executives.
