PRESS RELEASE

DODONI redesigns www.dodoni.eu

Even easier and faster navigation from any device

DODONI, the leading dairy industry in Epirus, recently revamped its website, www.dodoni.eu, to offer visitors even better and faster navigation from any device and any browser.

At www.dodoni.eu, users will be able to easily and quickly find the information they want about the top-quality DODONI products, and to tour beautiful sites in Epirus through stunning photographs and images.

They will discover a wide variety of traditional and modernised recipes from well-known chefs and popular food bloggers such as Madame Ginger, Paxxi and Cool Artisan which have been tested and proven delicious and easy to prepare for both experienced cooks and those venturing into the kitchen for the first time.

Additionally, through real-life testimonies, visitors will learn more about what gives DODONI products their unique taste - the [Taste of Good](#).

Primarily aiming to create pure, 100% Greek products that stand out for their quality and flavour, while consistently upgrading its media, in 2018 DODONI was recognised at the .eu Web Awards, the international institution presenting awards to the best websites in Europe, by earning a prize for www.dodoni.eu in the Special Commendations category.

Vicky Papoutsaki, DODONI's Marketing Manager, said: "The redesign of our website aims to make www.dodoni.eu even faster, easier to navigate and more user-friendly, as it offers comprehensive information about DODONI and our pure products, while also including a wide variety of recipes from recognised chefs and food bloggers. We are a company that consistently invests in modernising our communication channels, following global trends so that visitors can enjoy an even better, complete navigation experience and 'contact' with DODONI."

The DODONI website was redesigned by McCann Athens.
