PRESS RELEASE

Newly redesigned packaging for DODONI Sheep's and Cow's yoghurt

Consumers can now find the newly redesigned DODONI yoghurts in supermarket dairy sections

DODONI, the leading dairy industry of Epirus with a history of more than half a century producing pure, quality products, consistently stays one step ahead of current trends and consumer demands as it strives to enhance its portfolio of products and invest in new packaging.

As part of its efforts, the company has redesigned its packaging for sheep's and cow's yoghurts, following a modern aesthetic approach in both packaging and graphics.

DODONI Sheep's yoghurt is made with 100% Greek sheep's milk and yoghurt culture. It stands out with its natural, full flavour and is a nutritious and delicious option for any time of day.

DODONI Cow's yoghurt, available in full-fat or 2% fat, is made with 100% Greek cow's milk and yoghurt starter for a tasty and nutrient-packed healthy snack or even a complete meal.

The redesigned DODONI yoghurts are available at supermarket dairy sections in multi-packs of 3 containers (200 g each).

With its base in Epirus, for 57 years DODONI has shared the Taste of Good with thousands of consumers who select its products for their authentic, high quality. With a product line of 100 different items, it supports the largest milkshed in Greece, with more than 5,500 small and large producers.
