Press Release

**DODONI offers free fresh milk to 350 students on a daily basis
*13.500 liters of fresh milk will be offered by the Company until the
end of the school year***

DODONI dairy company, implementing constantly CSR activities that focus on society, undertakes the daily distribution of fresh milk - a product distinguished for its high nutritional value- in 3 primary schools of the Municipality of Ioannina.

Aiming to contribute substantially to the children's healthy physical development and sufficient intake of nutrients, DODONI from 19th of February until the end of current school year, will totally distribute 13.500 liters of fresh milk in three primary schools of Ioannina, covering on a daily basis the needs of 350 children.

This initiative is implemented in cooperation with the Principals of the schools who are responsible for the distribution of the provided milk to the children, while this specific project is part of a wide range of CSR activities that DODONI implements on a regular basis, in order to dynamically support the local society.

The Deputy CEO of DODONI, Michalis Panagiotakis stated: "Amid the challenges we have to overcome as a country, in DODONI we have decided to focus on people, always with respect, care and love. Under this framework, our goal is to stand by the children and their families, offering daily, fresh milk to students of our region in order to essentially support their healthy physical development. It is a great honor for us to implement such initiatives, in cooperation with the Primary Education Institutions, so as not even a single child be deprived of milk".
