PRESS RELEASE

## **2021 brought DODONI dairy industry new awards**

### *New important distinctions for the 2% DODONI Epirotiko Strained Yoghurt and the DODONI Goat-milk Yoghurt*

The start of the new year came along with new distinctions for DODONI, the leading dairies of Epirus, Greece. DODONI received two significant distinctions, a Silver and a Bronze award at the Healthy Diet Awards 2021, proving the company's dedication, for more than half a century, to creating innovative products of high quality and nutritional value, while promoting a balanced diet.

More specifically, the 2% DODONI Epirotiko Strained Yoghurt was distinguished in the category **Light Product-Dairy** with the **Silver award, the highest distinction of this category**. This yoghurt is a product of high nutritional value, has a rich taste and excellent texture as it is being skillfully strained and produced from 100% fresh milk from 60 selected farms across Epirus.

Furthermore, the new DODONI Goat-milk Yoghurt was the only product that was distinguished in the category **Dairy Products** with the **Bronze award**. The DODONI Goat-milk Yoghurt stands out for its excellent quality 100% Greek fresh milk, while it is the ideal choice for any time of the day, as it is a product rich in nutrients and has low fat content.

The Healthy Diet Awards were organized for the second consecutive year by Boussias Communications with the aim of rewarding excellence and innovation in products of companies that promote a balanced and healthy diet.

DODONI's Marketing Manager, Ms. Vicky Papoutsaki, stated the following: *"In the DODONI family, we are very proud that the authentic Greek taste and quality of our products are being distinguished both for their taste and for their important nutritional value. The recognition of our commitment to creating products of high quality and nutritional value, gives us further motivation to continue producing products that meet modern trends and needs, while gaining the trust and love of the consumers."*
